Fruit d'Or

“When Fruit d’Or was founded, we chose to look at things differently—and completely rethink traditional ways of processing. We are who we are today thanks to this approach. Today innovation is a given for us and informs the way we see the world. Our team knows that you can never respond without envisioning a solution. Innovation is what fuels our search for authenticity and commitment to always take the possibilities of sustainable development further.”

our organic story

From field to
finished products

We pamper our berries every step
of the way

Thanks to our vertical integration, our berries never leave our care. Crops grown primarily in our very own fields. We have complete control over every step of the production process. We comply with the strictest organic and food safety standards and certifications. **As an organic-obsessed company committed to sustainability, we believe that this truly adds to the goodness of our fruit.**

Complete line of
top-quality products

Using the world's most
advanced processes

We offer a complete line of top-quality conventional and organic ingredients. We're the world's largest grower and processor of organic cranberries and the second largest organic wild blueberry grower and processor.

Fruit d'Or continuously participate in research projects, both with universities and with private partners. Innovation and cutting-edge research and development are at the heart of our activities.

Using advanced processing techniques, we ensure that every facet of the natural benefits of cranberries and wild blueberries is maximized.

Breaking ground in
research & development

We've fine-tuned our processes to bring
out all the natural goodness of the fruit
