Reasons to choose Fruit d'Or

In line with the latest research and trends

Based on the latest research, our methods are based on laboratory testing and collaborative research with universities to meet the highest standards of quality and regulate bioactive nutrient levels, as indicated on our Nutrition Facts Sheets.

Clean label, natural and organic

Our pure Cran d'Or™ Bios is extracted from non-GMO seeds using a chemical-free process that perfectly preserves the nutrients. No solvents or other chemicals are used. Conventional and organic available.

Nourished by nature in our fields

Thanks to our vertical integration, our berries never leave our care. Our crops are primarily grown in our own fields, with a cold climate and acidic soil ideal for growing cranberries. Today Fruit D'Or is recognized as the largest grower, processor and supplier of whole fruit organic cranberry and wild blueberry in the world.

Purity from the ground up

Consumers are looking for pure, clean ingredients. Fruit d'Or is a proven leader and expert in cultivating and processing the finest cranberries and wild blueberries on the market. With a deeply rooted belief in sustainable and vertically integrated production, every step—from the seeds we sow to the crops we harvest to the finished ingredients we create—is meticulously monitored to ensure we only deliver the very best. Experience Fruit d'Or's proven authenticity, quality, consistency, and effectiveness—right from our fields to your natural health solutions.
